## MEETING THE CHALLENGE

The FirstEnergy Foundation presented a \$15,000 grant to Employment Horizons on Sept. 24. The grant supports the Meeting the Challenge of Success Building Campaign to expand Employment Horizons' Cedar Knolls facility. The FirstEnergy Foundation contributes to local nonprofit, tax-exempt organizations to help strengthen the social and economic fabric of communities within FirstEnergy operating companies' service areas, including that of Jersey Central Power & Light (JCP&L). From left are state Sen. Anthony Bucco, R-Morris, member capital campaign leadership committee, Employment Horizons; Jurate Fiory, executive director, Employment Horizons; Elaine Vincent, manager of community involvement, FirstEnergy-JCP&L; and Nancy Delaney, president, board of directors, Employment Horizons. Employment Horizons provides services and work opportunity to individuals with disabilities.
