

EMPLOYMENT HORIZONS

Spring Brook club hosts golf outing

MORRIS TWP. – The Spring Brook Country Club was the site for the June 15 “Daiichi Sankyo Golf Classic” to benefit Employment Horizons of Cedar Knolls, at which 108 top-notch golfers played in support of Employment Horizons’ mission to empower people with disabilities to earn a paycheck, develop self-worth and live as productive members of society.

In addition to title sponsor Daiichi Sankyo and Associate Sponsor Vision Equities, the agency’s third annual Golf Event benefited from the support of more than 70 additional sponsors and netted a profit in excess of \$45,000, officials said.

Golfers were given gifts that included a pair of custom-fitted Maui Jim Sunglasses and Titleist golf balls. A noon tee time was preceded by lunch on the club’s Grill Terrace, courtesy of Porzio, Bromberg & Newman.

Dotting the greens were cars offered as Hole-in-One Prizes, sponsored by Welsh’s Motor Sales of Far Hills, Warnock Dodge-Chrysler-Jeep of Morristown, and Borough Chrysler-Jeep of Wayne. No one achieved a hole-in-one.

Throughout the hot afternoon, roving beverage carts, courtesy of Cablevision and Bill & Pamela Craven, kept the golfers cool and hydrated. Competition for the various contests was fierce but friendly. A cocktail reception sponsored by Ruth’s Chris Steakhouse of Parsippany featured hot hors d’oeuvres, sushi bar, appetizer table and premium-brand open bar.

Golfer awards went to Dan Davey of Mercer Health & Benefits for Longest Drive (95 yards to the green); Mike Gordon for Straightest Drive; Marty Agacinski, an Employment Horizons Board Trustee, for Closest to the Pin - 28 inches;

Tom Gorcica for First Place, Gross - 70; Bob Mattesky for First Place, Net - 69; and Paul Harrington, John McDonald, Andy Findly and Ken Decker for Lowest Combined Score - 64, a repeat of last year’s winning team.

Employment Horizons’ mission is to serve an at-risk, deserving population of individuals with disabilities with job opportunities.
